

Declaration on lawful marketing and mutual recognition of goods

TOMPOL-MED Ludmiła Biadaszkiewicz-Strugała, the manufacturer and supplier of ProRoof products (emergency overflows for flat roofs – standard and HD series, INOX versions made to order, roof cable entry and prefabricated external corner for PVC membranes), declares that the products listed above are manufactured in Poland and are lawfully marketed in the Republic of Poland, a Member State of the European Union.

Under Articles 34–36 of the Treaty on the Functioning of the European Union and Regulation (EU) 2019/515 of the European Parliament and of the Council of 19 March 2019 on the mutual recognition of goods lawfully marketed in another Member State, goods lawfully marketed in one Member State may be marketed in other Member States. We therefore ask the authorities and contracting parties in the country of destination to recognise these products on that basis.

Technical information on the products (dimensions, materials, installation) is provided in the product data sheets, technical data sheets and installation instructions available at www.prorooF-systems.eu.

If additional documentation is needed, or documentation required specifically in your country (e.g. for a tender, a building permit or an investor's requirements), please contact us – we will provide it where possible.
